Design Services

Expert Office Space Planning & Design with CAD Technology

At Aspire Office Solutions, we combine advanced CAD (Computer-Aided Design) technology with over 35 years of expertise in office furniture and interiors to deliver independent, impartial office space planning and design solutions.

Our process begins with an initial consultation to understand your objectives. We then conduct a detailed survey, measuring dimensions and noting windows, doors, radiators, and other key elements to optimize your workspace efficiently.

Our Design Services

Aspire Office Solutions combines CAD technology with extensive industry expertise to provide independent, impartial office design and planning services, ensuring functional, stylish, and efficient workspaces tailored to your needs.

- 1 Consultation
- 2 2D & 3D Layouts
- 3 Fully Rendered Visuals
- 4 Animated Walkthrough

STAGE 1

Consultation

At Aspire Office Solutions, Stage 1 begins with a consultation to gather essential information.

We then create a 2D floor plan and select furniture from our extensive library to design a layout. This provides you with a clear, initial visual of your new office space, tailored to your needs.

STAGE 2

2D & 3D Layouts

In Stage 2, after any necessary adjustments, we create 2D & 3D office layouts from multiple perspectives.

This helps you visualise your office space from every angle, making it easier to address concerns and ensure a smooth office refit or relocation. Enhance your planning with our detailed 3D visualisations.

STAGE 3

Rendered Visuals

After approval of the previous stages, Stage 3 involves creating fully rendered 3D visuals of your office space. We add color to furniture, along with wall and flooring finishes, providing a realistic view of your finished office.

This process allows for adjustments before project commencement, ensuring the design meets your expectations. Many clients find this stage invaluable for refining their workspace vision and making informed decisions before implementation begins.

STAGE 4

Animated Walkthrough

Once previous stages are approved, we create a fully rendered 3D animated walkthrough of your office space. This allows you to virtually explore your workspace, with colours applied to office furniture, walls and flooring finishes.

The animated walkthrough helps you visualise the final design, providing an opportunity to make adjustments before the project begins. This step has proven invaluable for many clients, ensuring the design aligns with their expectations before implementation.

Office Furniture

High-Quality Office Furniture Solutions for Every Business

At Aspire Office Solutions, we believe your workspace should inspire. Our curated range of office furniture, from sleek executive desks to statement boardroom tables and refined reception pieces, is designed to elevate the everyday with effortless sophistication.

For those seeking something truly distinctive, our bespoke options offer tailored elegance that aligns perfectly with your brand's identity. Whether you're shaping a boutique studio or outfitting a global headquarters, we craft solutions that blend durability with timeless design.

From intimate home offices to expansive corporate interiors, our furniture adapts beautifully to your space. With luxurious finishes, versatile styles, and thoughtful detailing, we help you create an environment that's both functional and inviting, where productivity meets prestige.

Office Seating

Premium Office Seating Solutions

At Aspire Office Solutions, we understand that exceptional office seating is the foundation of a productive workspace. Our collection features ergonomic task chairs, executive seating, and elegant boardroom options, each crafted to deliver lasting comfort and support. We also offer stylish breakout and modular reception seating to create inviting, functional spaces.

Ergonomic design goes beyond comfort, it's vital to employee health. Poor seating can lead to posture issues, fatigue, and long-term discomfort, all of which impact performance and morale. Our chairs are thoughtfully engineered to promote well-being and reduce absenteeism.

Investing in quality seating is an investment in your team. Let us guide you in selecting seating solutions that elevate your workspace, support your staff, and reflect your commitment to excellence.

Office Screens

Office Screen Solutions for Privacy, Productivity & Noise Reduction

At Aspire Office Solutions, our office screens are designed to elevate your workspace by enhancing privacy, reducing noise, and improving focus. Whether you're dividing open-plan areas or creating quiet zones, our versatile range helps organise busy environments with style and efficiency.

For teams that require discretion and concentration, our solid screens offer a sleek solution. They create defined workspaces, reduce visual distractions, and support confidentiality, ideal for focused tasks and professional settings.

In high-traffic or noisy offices, sound control is essential. Our acoustic screens are engineered to absorb and block ambient noise, helping your team stay productive and undisturbed. Let us help you craft a more peaceful, organised, and high-performing office with tailored screen solutions.

Office Booths & PODs

Office Booths & PODs for Privacy, Acoustics & Productivity

At Aspire Office Solutions, our acoustic booths and pods are designed to carve out quiet, focused spaces within bustling work environments. Crafted from high-performance sound-absorbing materials, they offer privacy and comfort for meetings, consultations, or individual tasks—enhancing concentration and productivity.

We offer a range of sizes and configurations to suit every setting. Whether you need a compact pod for two or a larger space for executive discussions, our solutions adapt seamlessly to corporate offices, schools, and universities, ideal for study zones or collaborative sessions.

Investing in acoustic pods elevates your workspace by reducing noise and improving functionality. Let Aspire Office Solutions help you create tailored environments that support privacy, focus, and a more refined working experience.

Office Agile Working

Agile Workspace Solutions for Flexibility & Productivity

At Aspire Office Solutions, we design agile workspaces that inspire collaboration, creativity, and performance. Our flexible furniture solutions empower teams to choose how and where they work, supporting fluid movement between focused zones and shared environments, whether in the office or at home.

Agile working breaks free from fixed desks, offering freedom to adapt. From quiet corners for deep concentration to open areas for brainstorming, our versatile desks and workstations are crafted to support every mode of work, balancing comfort with functionality.

By embracing agile design, businesses unlock better communication, sharper focus, and stronger teamwork. Aspire Office Solutions provides the furniture foundation to help your team thrive, creating dynamic spaces that drive innovation and elevate your workplace experience.
